Is Movie "Star"

—Economist Photo

William Lain

A Southwest District Scout, William Lain, son of Mr. and Mrs. Van V. Lain, 326 W. 64th st., was chosen to "star" in the two-reel feature film depicting Boy Scout life which was taken last week at Camp Owasippe, Whitehall, Mich.

Scout Lain, who is a first class and merit badge Scout, was chosen from among 650 boys of Chicago who are at the Scout summer camp. The story filmed is of a "gang" and a Scout troop, and how one boy wins the members of the "gang" to Scout ideals. The picture will be shown locally to give publicity to work of the organization.

William is a member of Troop 610 of St. Bartholomew's Episcopal church, Stewart ave. and Normal pkwy., of which William A. Peterson is Scoutmaster. In February he will finish his eighth grade work at Parker junior high school. He spent the second and third periods at the Scouts' Michigan camp and returned last week to finish the picture.

G. H. Schultz, Southwest District executive, returned August 2 from the camp with 400 boys. He is supervisor at Camp McDonald, where Southwest and Stock Yards Scouts are encamped during the first three periods. Mr. Schultz may return for part of the fifth period.

"The camps are about 20 per cent larger than ever before," said Mr. Schultz, "and the big percentage of stayovers indicates the popularity of the place with the boys. Camp McDonald had no accidents, even of a minor nature, this summer.

"The Thursday before we left, McDonald defeated the other two camps in the water, relay, and signaling events, which are held during each period. We have had no trouble making second place during the first two periods, but in the third our boys made 100 per cent in everything."

SPENDS FIVE YEARS GUARDING BABY CABS

Watching his charges grow might well be named as the occupation of George A. Gibson, baby carriage checker at the Becker and Ryan company, 63rd and Halsted sts. August 5 Mr. Gibson celebrated his fifth anniversary in this unique position.

On any hot day you can see him slowly pushing back and forth some tiny infant in its carriage or fanning and entertaining an older and more active youngster. And in the winter he's just as busy, watching little ones even though sometimes his hands tremble with the cold.

"Take good care of her," the mother admonishes as she leaves her baby while she shops. Such caution is unnecessary for "Nurse" Gibson has had a great deal of experience, sometimes watching as many as thirty carriages at one time. In rainy weather he lowers an awning to protect the buggies, and during hard storms or very cold weather moves the carriages inside the store.

Mr. Gibson, who makes his home at 129 E. Garfield blvd., once had little ones of his own, but lost his wife and two children at one time by drowning.

SCHOOL SITE BOUGHT AT 78TH AND PRAIRIE

Purchase of the block bounded by 78th and 79th sts., Prairie and Calumet aves., has been made by the city of Chicago for the board of education. Several portible schools will be moved there in time for the beginning of classes this fall, and erection of a thirty-two-room grammar school has been recommended. Work will be started on its construction within two years, and perhaps sooner, members of the board's real estate department stated Tuesday.

The site was bought from Gaenssien brothers at a cost of $67,800.

"L" DANGEROUS AS TRAPEZE, BOY FINDS

Circus stunts practiced on the "L" structure at the rear of his home, 6436 Stewart ave., Thursday resulted unhappily for Eugene Parker, 11 year old son of Mr. and Mrs. H. E. Parker. Falling he suffered injuries to his spine in addition to the loss of two teeth.

ARREST SHOWS GUN OF HOLDUP MAN TO BE TOY REVOLVER

WOULD-BE ROBBER DRIVING VICTIMS' AUTO STRIKES FLIVVER SQUAD

His dreams of adventure and auto banditry ending in a collision with the Englewood flivver squad, "Allen Wolcott" is pondering over his deeds at the house of correction where he will spend the coming year.

A toy revolver left from Fourth of July's celebration gave "Allen" the idea of trying his hand at a holdup. Thursday about midnight Nathan Rabin, 868 Bowen ave., and his fiancee, Miss Marion Greenberg, who were sitting in the former's sedan in front of the girl's home at 6101 Ashland ave., presented themselves as easy victims.

Stepping into the machine, Wolcott ordered the couple to hand over any valuables they might own. Told that they had none, for Miss Greenberg had slipped her engagement ring into her shoe, the bandit ordered that he be driven to the north side. When Rabin objected that he did not have enough gasoline nor any money with which to buy more, his assailant furnished 60 cents with which gas was purchased at a filling station at Chicago and Michigan aves.

"Wolcott's" next orders were to drive to a side street where he might learn to operate the Ford. With the disadvantage of being forced to hold his "revolver" with one hand while he steered with the other, the inexperienced driver attempted the return trip after announcing that he would drop Rabin before taking the girl to her home. At Garfield and Loomis blvds. the ride ended when the flivver squad's machine was sideswiped.

Charged with attempted robbery, "Wolcott" spent the night at the police station and appeared the following day in Grand Crossing court where he confessed that he was Charles Taslitz. The 20-year-old boy declared he left his parents' home at 4931 Drake ave. last September because his family, Austrian Jews, objected to his sweetheart, Irene Kopeski, 5517 Wells st., a Catholic, to whom he planned to be married this week. Since leaving the parental home he has lived at 7008 Paulina st.

Judge Joseph S. LaBuy sentenced Taslitz to a year at the Bridewell, fined him $100 and advised Miss Kopeski to break the engagement when the case came up for final hearing Saturday morning.

LIST OF BURGLARIES GROWS IN VICINITY OF 69TH, WENTWORTH

DRY GOODS STORE LOSES $400, TIRE SHOP $700 WORTH

Merchandise valued at between $300 and $400 was stolen Tuesday evening, August 5, from Weiner Brothers' dry goods store at 6914 Wentworth ave. Circumstances connected with the burglary point to the probability that it was perpetrated by the same persons who have been committing a series of thefts in the neighborhood during the past six months.

Entrance was gained by breaking the lock on the door at the rear of the building. The missing articles include men's wearing apparel, for the most part, although some women's garments were also taken.

An even greater loss was suffered by L. Arthur Waber Sunday evening, August 3, when his tire shop was broken into and $700 worth of goods was taken. A radio set included in the loot is the only article easily identified. Here the burglars entered through a window opening on an alley at the rear.

Thursday evening, July 24, Jodar and Stuckey's drug store at 401 W. 69th st. was robbed of a number of cameras, cigars, cigarettes, and miscellaneous goods amounting to about $100. The same place of business was broken into in May soon after it opened.

W. J. Jacques, owner of a barber shop at 6911 Wentworth ave. lost two hair clippers and $11 in change from the cash register after thieves had climbed through a basement window and up to the ground floor by way of a hole underneath a radiator. The Jacques family lives over the shop, but failed to hear the intruders.

Four boys of 14 and 15 years of age were arrested several weeks ago in connection with the theft of a shot gun and a few dollars in change from the cash register at the florist shop of H. L. Keun, 6850 Wentworth ave. Identity was made by means of the gun which was found in their possession. When tried in the juvenile court they were released.

J. Wunder's tailor shop at 204 W. 69th st. was entered early in the spring and a suit and pair of trousers stolen.

SOFT DRINK PARLOR CASES POSTPONED

Of the numerous soft drink parlor cases called in Grand Crossing court Tuesday, twenty-five were dismissed when the proprietors produced licenses for operating coffee houses.

ASK AUTOISTS TO HELP GET STATE HIGHWAY

Illinois Officials Assure Aid to Make W. 63rd St. a Western Gateway

Highway officials of the state have assured C. R. Edrington, business manager of the Englewood Business Men's association, of their desire to co-operate in the efforts the organization is making to get W. 63rd st paved from Chicago Lawn to Argo, thus opening the western gateway that will develop trade with outlying territory.

Every auto owner has been urged by Mr. Edrington to write at once to Major John Quinn, superintendent of county highways, or Frank Sheets, state superintendent of highways, at Springfield, Ill., stating the need for an improved road on W. 63rd st. to connect with state highway 4 which comes in over Archer ave.

It is the aim of the association's public improvements committee to have that stretch of thoroughfare made a state highway from Archer ave. to the city limits as the first step in getting the state to pave it.

Under the present law of Illinois, each county has the right to lay a highway pavement and if that highway can then be made a state highway, the state, upon presentation of certificates from the county commissioners, attested to by the county clerk showing what moneys have been spent in making the improvement, will refund 50 per cent of the cost.

Communications have been sent by Mr. Edrington to Major Quinn regarding such a course for W. 63rd st.

Meanwhile, he is working with Aldermen Terence F. Moran, Thomas F. Byrne, John H. Lyle, and Patrick J. Ryan to obtain their assistance in having the city pave that part of 63rd st. that has not already been paved, extending from the Panhandle tracks west to the city limits.

Strenuous efforts are being made by the association to place before the state the pressing need for road improvements on W. 63rd st. The state, before it will act, wishes to be assured that the project is a community one and not merely commercial, or the selfish enterprise of the business section of Englewood only, according to Mr. Edrington. Proof that such an improvement would be of civic as well as of industrial benefit will be outlined by Mr. Edrington when he visits Springfield in the fall. He has pledged himself to get the paving project included in the $100,000,000 bond issue to be made late this year for the improvement of state highways, otherwise the paving of W. 63rd st. will probably be deferred indefinitely, pending a later bond issue.

MISSING MAN PHONES FRIENDS HE'S SAFE

Was he kidnaped, murdered, lost or did he suffer some other fate equally terrible? The friends of James Marcos, proprietor of a fruit store at 6852 Wentworth ave., asked each other these questions when Marcos failed to appear at his place of business Monday afternoon.

After hours of searching and excitement a telephone call was received from the missing man. In the Aurora jail where he had been placed for speeding, Marcos explained he had been denied the privilege of telephoning up to that moment.

MOTOR BUS LINES BEGIN OPERATION TO PALOS PARK AFTER DELAYS

HOURLY SERVICE ON THREE ROUTES TO SOUTHWEST SUBURBS

Four busses running on an hourly schedule from 6 o'clock in the morning until 12 at night are in service on three routes and additional cars have been ordered from the Reo company.

A certificate of convenience and necessity granted by the Illinois Commerce Commission permitted the beginning of transportation after having been held up several months by opposition from various sources, including Forest Preserve officials.

LIBEL AND DIVORCE SUITS GROW OUT OF H. A. CARR'S CHARGES

CARR SIGNS RETRACTION OF STATEMENTS MADE IN SUIT, BARTH ATTORNEY CLAIMS

A $25,000 libel suit has been filed against Harry A. Carr of the Carr Shoe store, 327 W. 63rd st., by Dr. Henry C. Barth, while Carr's wife, Mrs. Cecelia A. Carr, has filed suit for divorce as a result of the sensational charges made by Carr early in July, when he brought suit to regain control of the business from which he claimed to have been ousted.

The suit was later dismissed in the circuit court.

Attorney Harry A. Starr, who is representing Dr. Barth, says he has for use as evidence a statement, signed by Carr, retracting his statements in the papers his attorneys filed charging Dr. Barth with undue attentions toward his wife.

Gifts of an automobile, diamonds, and a fur coat from Dr. Barth to Mrs. Carr had been charged.

The stock of the Harry A. Carr shoe company was sold at public auction under judgment on a $5,200 note Carr owed at 79th and Cottage Grove ave. Monday, and bid in by Dr. Barth. The business, it is understood, will be continued by Mrs. Carr.

It Takes 40 Years to Build a Cemetery
Chicago's Most Beautiful Cemetery

Mount Greenwood
Is 45 Years Old

No commissions on lot sales paid to any person.

Real perpetual care—an honest contract—care funds in trust company's hands.

A properly developed cemetery—not a paper cemetery. Seven and one-half miles of sewers and drains prevent any possibility of wet graves or overflowed lots; 4¼ miles of water pipe connecting with the Chicago water system. Every lot in the cemetery properly watered during the dry season.

Lot prices moderate. Should be investigated by everyone wishing to secure a cemetery lot. Such investigation may save the mistake of paying as much or more for an unfinished lot in an undeveloped cemetery as would secure a lot in beautiful Mount Greenwood.

No vibration, and gasoline is in excess of twenty miles to the gallon. Ride in the Chrysler today.

We read the past by the light of the present, and the forms vary as the shadows fall, or as the point of vision alters. —*Froude*

CLEAR THE ISSUE

Much confusion prevails as to the definition of the "Western Gateway," as projected by the public improvement committee of the Englewood Business Men's association. Several local editorialists concluded that the only possible "Western Gateway" to open the Englewood business district to shoppers in the Joliet and Illinois river valley territory was the extension of the Chicago and Joliet interurban lines to the vicinity of 63rd and Halsted sts., an extension claimed to be impossible by the company's president.

What the business men of Southtown are really after—a project within reach—is to have the five miles of bad road between Chicago Lawn and Argo paved, to give a good highway connecting Southtown and Argo, where a linking up can be made with State Highway No. 4, which is a concrete road lying directly through Summit, Willow Springs, Lemont, Lockport, Joliet, and on to Ottawa, a distance of about 100 miles, and tapping the prosperous country contiguous.

If this paving were completed, it is only reasonable to believe that a profitable route for a motor bus line could be projected, with the busy shopping centers in Southtown as one terminal and reaching out to numerous smaller towns.

All over the United States where long distance connecting highways have been improved with smooth pavements, the modern, efficient motor bus line has come into being, in some places even supplanting electric lines that have passed out of existence because of inability to meet the gasoline competition.

These paved highways have also brought the distant business center closer to the individual automobile owner.

The thing for all of us to do to improve Southtown conditions is to understand what we want and all work for that. Let our efforts be expended toward paving the gap on W. 63rd st.—an improvement easily within our reach.

YEAR AROUND PROPOSITION

We have grown more or less accustomed to spring rains with their consequent flooded basements and traffic blocking viaducts, resulting from inadequate sewer facilities. They are endured as a matter of course. But the storms of the past week indicate the discomfort and insanitation of backing up sewers and flooded streets are not to be confined to the spring of the year. They are becoming a year around proposition. Because of the flattened land contour here, Chicago's sewage disposal problem is a serious one. Facilities are inadequate in many sections of the city. "Buena district property owners," reads an article in last week's issue of the Northside Citizen, "are again complaining about the backing up of sewage in their cellars every time a rain falls. This problem has been vexing Buena people for a long time." The item goes on to enumerate different solutions that have been suggested.

The problem is a general one, yet it is especially troublesome in the Southtown district. Following the killing, by a reactionary element, some months ago of the so-called "Aberdeen sewer project", sentiment in the matter has been quiescent. We would forget it if we could—it is only human to desire to put the disagreeable facts of life as far out of mind as possible—but every time a rainstorm comes the ugly monster rears its head to annoy our citizens.

The problem is not only a general one: it is also difficult of solution. Yet we cannot afford to leave it unsolved. Present conditions are detrimental to health if not actually dangerous to lives. And there is no estimating how much the inadequacy of sewerage facilities is preventing the building up and development of our district.

SUPPORT PARKS' FESTIVAL

Twenty years ago land was purchased by the South Park commission for the establishment of a group of parks, including Ogden. During the two decades that intervene, the plots of natural beauty and the recreational facilities that have been provided at the community centers developed there have meant much to thousands of boys and girls, men and women residing in their several vicinities. The four-day celebration, to begin next Friday, in which Ogden, Sherman, Cornell and Davis will jointly observe their anniversary should, then, prove a community event of no small importance. Those who have come to feel themselves a welcome part of one particular park's activities will want to participate in the special celebration of that center, and the co-operative way in which the festivities are being conducted should foster a decided intercommunity spirit.

Occasionally it is worth while to pause for contemplation of the benefits we enjoy. Our park system is one of them. What proximity to a neighborhood park means for physical health, clean recreational possibilities, and general betterment may be understood by trying to think what it would be like here without them.

The park directors and others who are working wholeheartedly for the success of the celebration should receive the gratitude, support, and co-operation of every resident of the district. We would like to see the various associations and organizations actively interesting themselves in the event that it may have the community aspect it merits.

"LEST WE FORGET"

Proposal to dedicate the Grant park stadium to the memory of Chicago's war dead, not yet memoralized while many other cities of the United States have erected magnificent monuments to their heroes, is arousing no little interest here among members of ex-service men's organizations and those who have lost loved ones in the conflict. The proposal is a worthy one, and we see no reason why it should not materialize. One real objection may be made against it, perhaps. The stadium is a South Park district project and, strictly speaking, does not represent the entire city. And surely all of Chicago would want to actually take part in the erection of a material expression, for posterity to read, of the gratitude contemporaries of martyred soldiers of the world war felt toward them.

But perhaps the point is trivial. Perhaps the spirit is the same, regardless. Certainly, the stadium is a noble monument which, by its perpetual giving of service to the people of Chicago and their visitors, may symbolize the gift of those who gave the supreme service, the sacrifice of their lives.

In the words of E. J. Kelly of the South Park board, "if those who started the movement feel the stadium is big enough and good enough for such a memorial, then the South Park board should be willing." And so should the people of the South Park district.

STUDIES IN FRANCE

Louis W. Harvison

Sailing from Philadelphia August 6 Louis W. Harvison, son of Mrs. W. C. Finck, 6122 Peoria st., arrives this week in Paris where he will spend the winter studying music and journalism in company with Ralph Jones of Pittsburgh, Pa., nephew of James J. Davis, United States secretary of labor, whose interest has made it possible for young Harvison to spend the winter abroad.

The young man has been an Englewood resident for twelve years, coming here from Pittsburgh. He is a Moseheart High school graduate and has attended the University of Chicago. Returning July 20 from a six months' concert tour of the southeastern and northern states and Canada for the benefit of the Mosehart endowment fund, he left almost immediately for New York to attend the Loyal Order of Moose convention held there from July 27 to July 31.

SOUTH PARKS PROVIDE CHILDREN FOR INSTITUTE OF RESEARCH STUDY

SUPERVISOR OF RECREATION CONDUCTS PERSONAL INTERVIEWS

Are you able to formulate five questions, answers to which will determine whether a child will or will not be a congenial member of a social group?

Not the questions, but determining if a child is a fit or a misfit in any social group is the problem that Miss Claudia Wannamaker, supervisor of recreation at the Institute of Juvenile Research, 721 Wood st., is attempting to solve in her co-operation with the South Park commission.

Cornell Square, Ogden Park, Hamilton Park, Grand Crossing, and Mark White have been assigned for an initial study. Special days of the week are given over to interviews at the different parks, as well as observation group play and individuals at handiwork classes.

"This study of the child, that we are undertaking at the parks is purely pioneer social service work," Miss Wannamaker said in speaking of how an interview is conducted. "Simple tests in silent reading as well as informational questions are given to bring the child to a normal attitude before the real tests are undertaken."

Recreational resources are studied for each child interviewed with the hope of finding why the "misfit" has become such a member of the social group, and the "fit" is studied to know how to increase his facilities for associations as well as finding a means of aiding the one who is a member of the unfortunate group.

Miss Wannamaker's previous studies have given her a limited classification for the groups into which various children fall with reference to being "fits" when they had been "misfits" previously.

A Faithless Husband

From a letter received by a mail-order house:

"The enclosed articles have proven unsatisfactory to my wife, who, I regret to inform you, is very hard to please. I notice they are entirely as represented in the catalogue and also just what was ordered, so it is no fault on your part. My wife is naturally very trying at times. Sometimes she does not know what she does want. I am thoroughly disgusted with the way my wife finds faults with things, especially when she receives exactly what she orders."—Boston Herald.

Motorists are not the only people who should consider the "Safety or Sorrow" campaign, believe Anna Oderman and Anna Rosenberg, 13 year old girls who live in apartments at 5957 Aberdeen st. How about the folks who are responsible for the children?

And so, to keep them off the streets, the two Anna's gather all the youngsters of the neighborhood into their yard almost every fine afternoon and there entertain them by planning games and "stunts." The picture shows the girls and their charges. Anna Oberman is at the left and Anna Rosenberg, right.

IRISH FEAST DAY TO BE CELEBRATED

Celebrating Lady Day in Harvest, Ireland's feast day of August 15, the United Irish societies will hold their annual picnic the following day, Saturday, August 16, at Brand's park, 3259 Elston ave. Police Lieutenant Michael W. Delaney, president of the society, was influential in changing the date to Saturday in order to accommodate many who could not attend on Friday.

Athletic events are scheduled for the afternoon, prizes in the various games and sports ranging from a ton of coal and a crystal radio set to a box of cigars and a bottle of toilet water. Two orchestras will furnish music for dancing, one playing modern tunes, while the other provides Gaelic songs for Irish steps.

John A. McGarry, chairman of the speakers' committee, promises to have representatives of the three political parties present to make addresses.

Besides the president, the officers of the United Irish societies are: Attorney John J. Mahoney, 819 Ashland block, treasurer; John E. Sheridan, vice president, and Assistant State's Attorney William J. Grace, secretary. In charge of various committees are Henry Kavanaugh, games and sports, 2701 Karlov ave.; Maurice Crotty, music and dancing, 6223 Troy st.; William J. Grace, 1730 W. 105th pl., press; Martin Fleming, 554 Stratford pl., grounds; Harry Galvin, 5427 W. Jackson blvd., printing; former Congressman Thomas Gallagher, reception. The latter has on his committee State's Attorney Robert E. Crowe, Judge T. J. Hurley, Judge Joseph Burke, Judge John O'Connell, Hon. George F. Barrett, Capt. F. J. Matchett, P. T. O'Sullivan, and other prominent men.

The station will be completed by next January, according to Alderman Thomas F. Byrne, and will relieve pressure at the 68th st. pumping station. The additional force to be provided by the 49th st. station will enable West Englewood dwellers to have water on the second floors of their homes, a condition impossible in the past, due to insufficient water pressure furnished by the 63th st. water works.

Mr. and Mrs. Frank Nelson, 5610 Green st., have returned from a vacation at South Haven, Mich.

Mr. and Mrs. O. Olsen, and family, 6351 Paulina st., are spending the week at Cedar Lake, Wis.

Hygienic Corseting

I read in a newspaper recently that one of the oldest and largest of our corset factories in the United States had gone out of business, and that another one had sold out all but one-third of its former holdings and still another one had ceased making corsets and turned the plant over to an entirely new industry. All this is due to the present careless era! As we look back at the corset of other years, veritable instruments of torture, we realize that some radical change was inevitable, but no one ever dreamed that women would adopt the other extreme and wear no corsets at all.

Now I am a staunch advocate of comfort and common sense and I champion the cause of the new woman with her independence and freedom. But, I am also an intense admirer of beauty and I believe there is no beauty where the feminine form is allowed to waddle and where abdomens bulge forward without restraint. Every little while we may happen to find an uncorseted woman with a straight figure, erect carriage and firm hip and abdominal muscles; but this woman is one in a thousand and is usually an athlete who is always in superb physical trim.

Unfortunately, the average woman exercises very little or not at all and for this reason it is absolutely necessary to wear a corset to support the trunk of the body. But care should be taken to find the proper corset and have it correctly fitted.

Surprise is often expressed that so few fitters of corsets really know the basic principles of correct corsetry. Correct corsetry does not come simply through a knowledge as to whether at a particular season one should wear, for instance, a long or a short skirted corset or a high or a low bust: it is a much more serious proposition than that. "Style" goes far deeper than these details for what style has a woman with a tired, drawn look around the face and eyes, and a carriage suggestive of effort in putting one foot before the other? To encase such a woman in a corset that does not take cognizance of her anatomy, is like a physician treating a disease without any attempt at diagnosis.

Those who fit and sell corsets are frequently ignorant of the damage they may do by not knowing how to fit the anatomical need. They are thoroughly conscientious in their work and do not make these errors wittingly: it is simply lack of proper education. Women in general, therefore, should inform themselves upon this subject so that they may buy corsets, not blindly, but intelligently. To one versed in anatomy it is easy to discover in the improper corset a cause for backache, pelvic troubles, indigestion, and all the other disorders that seem to fall to the lot of women.

The subject of posture has been much discussed—sometimes intelligently, but more often superficially. A good anatomical chart showing the relations of the vital organs of the body, readily informs one regarding the evils of incorrect posture. Constantly changing the position and relations of the various anatomical parts of the torso, must necessarily result in abnormal functioning; for from what mechanical machine do we get efficiency if there is a disturbance of even one small part? It may be seen, therefore, that the logical course to follow would be the adoption of one style of corset and adherence to it. Just be sure that the corset you choose is positively right in size and type and fit for your particular type of figure and then let no one dissuade you or try to sell you anything else.

ANSWERS

Lotta—Go bareheaded as much as possible so that the air may circulate through your hair and reach the scalp. If you do not wish to expose it to the sun I would advise you to carry a parasol in preference to wearing a hat.

Annette—Better watch your little daughter's diet. My guess is that she is not getting balanced meals—too much starch and sugar and too little of the green vegetable and mineral foods. Excess weight is not always a sign of health for fat built with starch and sugar may harbor diabetes.

F. M. D.—It all depends upon how fast your hair grows. Six inches a year is a normal growth but some persons' hair grows much faster than that. We usually find that it is six months before the hair on top of one's head is grown out so that it contrasts strongly with the curly ends and even then the permanent wave is still intact in the long hair. The top may be waterwaved or marcelled and it will be another three months probably before the entire head needs to be permanently waved.

JOHN SAMUELS VISITS OHIO TORNADO AREA

Ruin wrought by the tornado at Sandusky and Lorain, O., were viewed by Mr. and Mrs. John J. Samuels, 2314 W. 112th st., on their motor trip through the east, from which they recently returned. According to Mr. Samuels, who is a druggist at 6500 Halsted st., the country through which the tornado passed will not be rebuilt for many months and was damaged more than people here realize.

Economic conditions are also depressing there, although the work of business and civic reconstruction is proceeding as fast as possible. Factories along the Lake Erie waterfront were in many places demolished but are being rebuilt now, he observed. Pictures of the worst spots touched by the high winds were taken by him. Some of them show seemingly substantial dwellings of large size lifted off their foundations.

Their itinerary included Buffalo, Cleveland and other eastern points. They stopped at Niagara Falls, N. Y., but found the town very quiet and very little business being transacted. According to Mr. Samuels, its main commercial street had fewer people on it on a busy day than has the section of Halsted st. near 65th on a quiet one.

The Misses Katherine Begley, 6843 Bishop st., Alice Nevins, 1842 W. Marquette rd., Ethel Gleason, 6816 Bishop st., Julia Weldig 6714 Ada st., and Mrs. P. T. Healy, 6843 Bishop st., have returned from a week's trip to Paw Paw Lake, Mich.

Wetherell Garden in Morgan Park Contains 150 Varieties of Flowers

—Economist Photo

One of the attractive vistas in the Wetherell garden, showing the owner at work amid a profusion of blossoms.

Beautiful flowers and undulating lawn that attract visitors from all parts of Chicago are the transformation H. S. Wetherell, president of the Morgan Park Lawn Enforcement league, and four years have wrought on the weeds and a mudhole that characterized the plot of ground south of his home at 111H Irving ave.

Commanding views in four directions, the space was an ideal location for the semi-formal flower designed by its owner for the rare blooms and better known flora that intermix their with the democracy of nature.

Landscape possibilities were somewhat submerged when he first acquired the Morgan Park site, owing to its physical limitations. It was necessary to fill the southwestern portion with 300 loads of soil before the deep depression there was eradicated. The land was not entirely evened because broken lines in a city lawn restore the natural contour. Mr. Wetherell an amateur gardener, planned the place on paper before planting a single flower.

Brick walls constructed from materials found in the original mudhole lead to the larger flower beds in which there are 150 different kinds of flowers classified by the botany department of the Morgan Park high school as simultaneously in bloom, and scores of varieties uncounted.

Plants bloom in the Wetherell garden from the first spring days until frost nips the late chrysanthemums. They appear in a season rotation, crocuses before the snow is off the ground, tulips, iris, peonies, delphinum, phlox, cone flowers, globe thistles, platycodons, Shasta daisies, marguesites and dahlias.

Studies Mass Effects

Color masses have been carefully studied by this gardener and he has placed his flowers where their tints could be most effective. One group was planted for early spring with lavender and purple as the color motif. The southeast corner arrested attention with its lilacs, purple columbine, and tulips of that shade.

Contrasting that well matched group are the bright yellow "butter and eggs" and intensely blue veronicas to the westward. Careful color combinations are obtained by him by staking his plants into desired groups during their latent season.

Brilliantly hued phlox of different varieties and pink cone flowers from Mexico resembling tall, huge daisies carry their tones a long way. One of the most effective examples of his fondness for color graduation exists in the line of flowers separating his yard from that of his neighbor to the east. It consists of a low bank of bright pink petunias, in the rear of which are variegated pink and white and yellow snapdragons, rose and white phlox, zinnias, iris, hollyhocks ten feet tall, and nine bark spirea. Near the public walk is a clump of bocconia and hybiscus.

Has Strange Specimens

Odd shapes and names characterize many of his specimens. The balloon flower or platycodon, consists of a blossom circular at the base and tapering to a tip when folded. It is a "one-piece" flower without petals but with points like stars. It has a peculiar tendency to reproduce a solid color rather than a mixed tone if a white balloon flower is crossed with a blue one, although Mr. Wetherell has succeeded in obtaining a blue tinted white blossom from such a mixture, in his experiments.

Bees flock to the tall, blue globe thistle, a spherical flower with foliage of distinctly thistle type. Gladiolas with their erect, stiff sheaths of blossoms take their name from the Latin word gladius, a sword, having been known in old days as the sword flower. Likewise the ageratum, that borders Mr. Wetherell's oval sunken garden, taken the name from the Greek for "old man" because the blooms are tiny, fuzzy heads and the plant is extremely hardy and noted for longevity. The scabiosa, or pincushion flower, was popular with the Greeks because its blossom was made into a tea and consumed as a remedy for the scabs of smallpox. It is known today also as the "morning bride". Mr. Wetherell has a specimen of the peculiar tuberous begonia whose petals when folded clasp together like a clam's shells. It has a large yellow or pink blossom.

Home garden types figure prominently in his beds, which are bright with Canterbury bells, verbenas, bleeding heart borders, cornflowers, and their more cultivated relative, the centurea, sweet rocket, dusty miller, red flax, snow on the mountain, lady slippers love-in-a-mist tuberoses, pansies, and pinks.

Gift Flower Corner

Friends have contributed many of his plants and one corner of his garden has been reserved for such floral gifts. He has a direplant, a border foliage that came from the California garden of Luther Burbank and is one of that scientist's developments. His foxgloves and English violas are from the garden of Wordsworth, the British poet.

Less common flowers are also represented among his assortment. In the Christmas rose, one of which decided to bloom this month, the dwarf morning glory, the yellowish red geum, galleza or goat's rue, red lichnas, blue salvia, rarer than the red variety, the Oriental poppy, a pink and orange flower the size of a saucer, that blooms in June, the fern leaf peony, and the white delphinium. He has many varieties in subtle shades of the phlox and funkia and has some interesting hererocallis, or daytime lilies, also a large number of tobacco flowers, gaillardea, and Shasta daisies.

Fragrance before flowers appear has been assured for his garden by several perfumed plants, the bergomot or monarda from which women used to make a pleasant smelling oil for children's hair, the sea lavender and sweet briar rose.

Grows Sassafras Tree

Overhanging an arch at one end of the east walk are lace vines. One Mr. Wetherell has cultivated with great care, the other growth he left to nature and it developed much better than that which has undergone his ministrations. He has grown a sassafras tree that originally came to him as a shoot in a letter from a friend, and his garden contains a quaking aspen, a Colorado tree whose leaves rustle with a wooden rasp when the mildest breeze blows.

Work in the garden has been done entirely by Mr. Wetherell, who finds it no more expensive, he said, to maintain a large garden on a lavish scale than to keep a small bed in good shape, if one does his own work. He is absent from the city much of the time as a structural engineer but gives his garden conscientious care when at home.

His cement bird baths, garden seats, small foot square flags for the paths, and a fountain were all mixed and cast by him. He has selected flowers for his garden that blossom throughout the summer rather than types such as are used in many of the formal eastern gardens that are famous for a season only. Many of his friends have been furnished with his plants, which he grows from seed. He is a frequent speaker on gardening subjects, before women's organizations since his garden is a local demonstration of the possibilities that a city yard offers for landscape effects.

All On Business

A man slipped on a banana-peel and executed a very funny fall, not being hurt, as it turned out, but having his dignity somewhat ruffled. When he recovered a moment later a friend was holding his hat and a number of people had formed a circle.

"What do these idlers want?" he snarled.

"They are not idlers," explained his friend soothingly. "Here's a doctor who wants to look you over, a lawyer ready to bring suit for you, and producer of comic films who would like to sign you up."—Seacoast News.

POLICE ENTRIES IN FOR THIRD ANNUAL MEET

Failure to Divide Traffic Squad Spoils Englwood's Chances

Final registration in the third annual police field and track meet to be held in the new stadium in Grant Park on September 6 and 7 has been completed by members of the Englewood team and the entrants are anxiously awaiting the day when they will have an opportunity to compete.

Englewood has copped second place in the two previous meets but hopes they had of leading the list this year were shattered by failure of the committee in charge of the program to divide the traffic division into smaller groups in order that the outlying stations may be able to compete with them on an equal basis.

As in previous years, the entries from the traffic division are expected to number sixty while Englewood will have only eighteen men in the meet. In spite of the fact that they will have to face this overwhelming handicap again this year Coach John Kielty and his squad are not disheartened. Although they realize that winning the meet is next to impossible they are even more determined to press the traffic section close.

Traffic Lead Not Large

Last year the traffic division team, with three times as many entries as Englewood, counted 50 points or less than twice as many as the 31½ rolled up by the locals. Englewood's team of last year is practically intact and Coach Kielty has picked a few newcomers, whom he believes have ability, to add to the squad.

Transfers of officers have weakened the team very little but some concern is felt about the absence of Bert P. O'Brien, fourth place winner in the high jump and pole vault last year. O'Brien has been assigned to drive a Detective Bureau car and has been unable to report for practice recently. He will compete with the station team, however, but it is believed that his failure to work out regularly will handicap him.

Eighteen Men Entered

Eighteen men will represent Englewood in the track and field events and a dozen more will join with other stations to form one group representing the south side in sectional events. There are nine track and seven field events on the card and competitors will be permitted to enter two track and one field event or two field events and one track race, and also, one relay race. Some changes have been made in the program, chief of which is the elimination of three relays and the introduction of novelty races in their stead.

Of the five relay races scheduled last year only the four-man half-mile and the eight-man mile are kept, the four-man quarter-mile, the twelve-man mile and the twelve-man medley miles being left off the program.

The innovations will be a mass drill by the 1,600 entrans and sack, shoe and obstacle races. The last named novelty events will not bring points to the stations in the competition but winners will be awarded medals. These events, always certain to amuse, were placed in the program to liven up the proceedings.

Many Mass Events

The sectional events will be a caterpillar race, a chariot race, tug of war, and a pushball game on foot. Men from the mounted division will furnish a Roman riding race, mounted watermelon race, rescue race and horse race. A game of polo on motorcycle will be played by the motorcycle policeman and they also will give exhibitions of stunt riding.

The entries from Englewood in the track and field events are as follows:

50 yard dash, John Ginna; 100 yard dash, Thomas Doody, John J. Barrett; 120 yard low hurdles, Terence Collins; 220 yard dash, Matthew Mayer; 440 yard run, Milton Keebler, Patrick Nolan, Matthew Mayer; half mile run, Milton Keebler, Cyril Rapier, Patrick Nolan; mile run, Thomas Johnson.

Broad jump, Philip Nulty; high jump, Bert T. O'Brien, Daniel O'Brien, Cyril Rapier; pole vault, Bert T. O'Brien; running, hop, step and jump, John Kielty; 16-lb. shot put, John Kielty; 56-lb. straight throw, John J. Barrett.

880 yard relay, team No. 1, Milton Keebler, Cyril Rapier, Matthew Mayer, Philip Nulty; team No. 2, Anton Zapolsky, Bert T. O'Brien, Walter Lyons, James Folsom; mile relay, Patrick Nolan, Philip Nulty, Milton Keebler, Mark A. Starck, Cyril Rapier, John Kielty, Matthew Mayer, Thomas Doody.

Those entered in the sectional events are Sergt. Michael Mulvey, James Brennan, Michael Boyle, William Crawford, Thomas Curtin, George Devoe, Joseph Dillenberg, Thomas Lowery, Thomas O'Brien, Edward Tracy, and William Tucker.

DREXELS WIN BY DEFAULT AT HAMILTON

A win by default was handed to the Drexels, Sunday, at Hamilton Park, when, in the eighth inning, the Hottentots refused to abide by a decision of the umpire and walked off the diamond, thereby allowing the umpire to award the game to the Drexels by a score of 3 to 0.

The game was featured by the heavy hitting of Franklin, shortstop for the Drexels, who collected three hits, one a homer, and a sacrifice fly in four trips to the plate. The Drexel's infield was notably fast and pulled two double plays in the eight innings of play.

The Drexels have an open date this coming Sunday, as well as future Sundays, and are eager to hook up with any team averaging 18 years of age. For games call Dorchester 2063.

Riders who intend to take part in the Ogden Park bicycle race met in the Field house Friday evening to make plans for the event sanctioned by the Amateur Bicycle League of America, which is scheduled for 9 o'clock the morning of August 24.

Races for that date will be: Two mile class A, 5 miles open, 2 mile class C, 2 mile novice, 1 mile boys and 1 mile girls. Prizes will be awarded. No entry charge is made and entry blanks may be obtained at the office of Daniel Russell, park director.

During the meeting Friday evening the organization of the Ogden Park Wheelmen was effected. This new association expects to recruit for its members those who formerly were identified with the old Marquette Wheelmen association, now defunct. A race will be sponsored by the Wheelmen in the fall at Jackson Park.

RIDGE PARK WALLOPS GOES LITHOGRAPHERS IN SATURDAY TILT

WINNERS WILL MEET RESOLUTE A. C. ON HOME DIAMOND THIS WEEK

In a fast game at Ridge Park Saturday the team wearing the name of that place downed the Goes Lithographers to the tune of 7 to 1.

The Lithographers' lone score was made in the sixth on errors. Schampel's two-bagger in the fifth brought in the first run from Ridge. In the seventh Hermes went to first on an error, made second on Fry's out and romped in home on Rheinberg's smashing hit.

But the walkaway did not come until the eighth inning when, with a double by Schampel, three singles and a base on balls, Ridge rollicked across the plate for five tallies.

SLAGER TEAM WINS AND BY FORFEITURE

Wise's pitching for the Slager aggregation in Sunday afternoon's game at Gage park against the Chicago Bear camp was the outstanding factor in his team's 3 to 1 victory. Masek, at third base, also did some feature playing.

Zikmund and Wise constituted the battery for the Gage parkers, while Nohr and Heisler did that work for the opposing team. Nine hits with only two errors were piled up by the Slagers against six hits and one error by their foes.

The Hahle Stars forfeited their game which was to have been played Sunday morning at Gage park against the Slagers.

Score by innings:

Slager	001 010 100—3
Chicago Bear Camp	000 100 000—1

Next Sunday another double header will be played, when the Slager team meets the Gage Park Pool Room nine at 10:30 o'clock on the park diamond with Louis and Zikmund as battery. In the afternoon the men will journey to Argo to play the Argo Reds.

OGDEN GIRLS PLACE FIRST IN TRACK MEET

"The way Ogden park girls have been winning things recently indicates they have climbed to the top in the supremacy standing of the South Parks, with the determination to remain there," Daniel Russell, director of Ogden Park, stated this week, commenting on the record his entrants made in the South Parks senior girls' track meet Saturday. Ogden won first place with a score of 29 points.

Bella Weizer was the high point winner, scoring first in the broad jump and 50-yard dash, and running fourth lap on the Ogden Park relay team. She qualified for the finals in the 100-yard dash but was disqualified and not allowed to enter because she had already won two first places.

Junior girls of Ogden placed third in their track meet.

Dorothy Childers placed first in the South Parks senior jackstones contest.

Ogden Park senior boys placed second in the South Parks swimming meet Saturday at Sherman Park. The junior boys took fourth honors in an effort to climb toward the top in the South Parks supremacy standing. They had also been getting ready for the boys' tennis tournament at Bessemer Park Monday, Wednesday and Friday of this week.

Other boys' events will be the junior tennis tournament at Sherman Park August 23 and the tug-of-war, senior horseshoe doubles and the senior and junior bicycle contests at Ogden Park August 30.

TRAVELING BURLESQUE COMES TO NATIONAL

Englewood theater goers the coming season will witness traveling burlesque shows at the National theater starting Sunday matinee, August 24, and continuing all season. Englewood patrons had no opportunity last season to see traveling burlesque through the efforts of J. Thomas Beatty, whose name is familiar here as one who always tries to give the public just the type of shows that pleases them. Mr. Beatty, who will operate the National theater during the coming season, has gone to an enormous expense in securing the best traveling burlesque attractions for the public's approval.

The type of shows that will play the theater will be exactly the same type that played the Englewood theater in former years.

Snappy costumes and new scenery are part of the equipment that will dominee in each show. Last but not least Burlesque's funniest comedians.

Among the stars to appear at the theater for the coming year are Al Reeves, Billy Gilbert, Harry (Hello Jake) Fields, George P. Murphy, Mike Sacks, Lew Kelly, Chester Nelson, Pat White, and many others who are familiar to Englewood patrons.

Mort Levin, a veteran in show business, will manage the house and be on hand to greet his public.

It's a Good Feeling---
to know you have your next winter's coal supply safe in your bin.
Prices are low now and it pays well to buy coal during the summer months, instead of waiting until autumn.
I use hard coal altogether and have been buying it from the same coal company for years. This coal does not clinker, it gives you plenty of heat, and the fire is easily regulated. That's why I tell all my friends to go to J. B. Meiner & Son, Inc., 338 W. 71st St., to buy their coal. That company has no canvassers on the street. You always do business with one of the principals of the company. You are assured of a square deal and courteous treatment at all times. If you want anything in the line of coal call them up. Their phone number is Stewart 0070.

RADIO FANS ENJOY PROGRAM DURING RAIN

Three hundred radio fans from all parts of the city braved the storm Friday evening to attend the Broadcast Listeners' association open meeting, which was held at the Hamilton Park Field house, 72nd st. and Normal ave. Two barn lanterns hung in the assembly hall of the Field house furnished light, when the main cable at the power house broke. The entire program planned for the entertainment was given with the exception of an illustrated lecture by Frank Reichmann.

Among the entertainers were: Hal Hirsch, and Gorny, in vaudeville dialogue; Miss Gail Bandoll, of the Duncan Sisters troupe, KYW studio with Nort Schaffer at the piano. Miss Catherine O'Brien, from WOC, Davenport, monologist; Arthur Nelson, in classical and popular numbers on the harmonica; and the California trio, in vocal selections.

M. H. Romberg, electrical engineer from the University of Chicago, gave further information and instruction concerning the selective tuner he developed and constructed for the members of the Broadcast Listeners' association.

The next meeting and program for the association will be held in the Field house at 8 o'clock, Friday evening, August 15.

MEMBER OF BOYS' CLUB WRITES OF CAMP LIFE

Camp life at Winona, Ind., where the Chicago Boys' Club Four is spending a vacation period, has been described by John Rose, one of 52 members of that group, in a letter to a West Englewood friend.

"The camp has one of the best bathing beaches on the lake. After our swim the first night we were ready for a nice sleep, being tired out from the trip. The remaining days since coming here we played ball, pitched horse shoes, played volley ball and games of all sorts. Our club played other clubs for championship and we played second. We also had a track meet and swimming meets.

"The club owns two boats and we go rowing every day. The lake is full of fish and the fish are biting pretty good. About the swimming, it is the most important sport at the camp. Very few boys ever miss the swim unless they are sick or are working. The water is fine and is warm, much warmer than Lake Michigan.

"After supper every night the whole camp joins in games and boxing. After the games, each club goes to its barracks or camp fire. We have a fine time at camp fire learning new songs, yells and other interesting things."

Norman H. Cook, 6405 Hermitage ave., director of the club, is in charge of the boys, who are part of a group of 150 at the camp now. The camp period for Club Four is from July 30 to August 8.

BYRNE INVESTIGATING CITY PENSION FUND

Alderman Thomas F. Byrne of the 15th ward is acting as chairman of the committee investigating the pension fund for police, firemen and municipal employes.

Preliminary examination of the methods by which the department is being conducted is engaging the attention of him and his co-workers. It is the aim of the committee to ascertain if the fund is being honestly managed and efficiently handled, since it represents the saving for old age or dependency of hundreds of city employes and involves millions of dollars. He expects the inquiry to last through the summer.

"We have found no irregularities in the management of the fund to date, but the amount involved is so large the city believes it should be protected and intends to insure its safe handling," the alderman said.

A Long Sought Relief for Women
WOMAN'S highly nervous and complex organism is very easily affected by the strain of her duties. The continual drain of housework alone, puts a burden upon the system which, if not relieved, soon makes an old woman out of many a young and energetic Mother before her time.
Especially is the back the point of severe strain and the cause of suffering. It is the pressure of strained, moveable bones of the spine on the nerves that causes disturbed functions and leaves women fagged out.
Chiropractic Will Benefit
For this reason, women who are run down because of housework, or business duties, find Chiropractic of benefit. The Chiropractor adjusts the spine, corrects spinal defects and removes the pressure from the nerves. Normal nerve function is thus restored and Nature goes about its work unimpeded, to build up the system, strengthen the weak and diseased organs and increase the disease resisting power of the body. There is nothing embarrassing about Chiropractic. No drugs or surgery are used, yet it insures the best results.
CHIROPRACTIC
Many women who are not sick, but who feel run down and tired, take Chiropractic adjustments to keep fit and to maintain their bodily vigor. For Health's sake learn more about Chiropractic (KI-RO-PRAK-TIC). Have a competent chiropractor give you a free analysis of your spine and information, or send your name and the names of your ailing friends, and literature will be furnished.
